COMMISSIONER FOR PATENTS  
WASHINGTON, D.C. 20231Correction of Typographical Error

Sir:

A typographical error has been discovered in the amendment and response that Applicants submitted on December 16, 2002. Toward the bottom of the second full paragraph of page 3, Applicants state that, "By rotating the plate to a different angle with respect to the light source, a different diffraction grating with a different diffraction grating will be presented." The sentence should read that a different diffraction grating with a different diffraction grating spacing will be presented.

Applicants apologize for any inconvenience that this typographical error may have caused the examiner.

Respectfully submitted,

Date: 01/15/03
